## Tuberculosis (TB) Screening Documentation

### All information must be in English

The University of North Dakota requires documentation of Tuberculosis (TB) screening within 6 months prior to or 1 semester after College entrance with a Mantoux skin test for those students meeting the following criteria:

#### A. Check all that apply:

- Contact with a person known to have active tuberculosis
- Signs or symptoms of active TB such as chronic cough, bloody sputum, fever, night sweats or weight loss
- Healthcare worker
- Volunteer or employee of a nursing home, prison or other residential institutions
- History of illicit drug use
- Have been diagnosed with a chronic medical condition that may impair your immune system:
  - Cancer of the head and neck or lung
  - Chronic malabsorption
  - Chronic renal failure
  - Diabetes mellitus
  - Intestinal bypass or gastrectomy (stomach removal)
  - Leukemias, lymphoma or Hodgkin's Disease
  - Low body weight (10% or more below ideal or BMI of 18 or less)
  - Organ transplantation
  - Silicosis
  - Immunosuppressed from steroid use receiving equivalent of Prednisone 15 mg/day or more for 1 month or more
- From or have lived for 1 month in Asia, Africa, Central America, South America or Eastern Europe. This includes all countries **EXCEPT** for the following countries noted, which have a low prevalence of TB:

#### American Region:

Canada	Jamaica	Saint Kitts & Nevis
St. Lucia	Virgin Islands	USA

#### European Region:

Belgium	Denmark	Finland
France	Germany	Greece
Iceland	Ireland	Italy
Liechtenstein	Luxembourg	Malta
Monaco	Netherlands	Norway
San Marino	Sweden	Switzerland
United Kingdom		

#### Western Pacific Region:

American Samoa	Australia	New Zealand
----------------	-----------	-------------

#### If any of the above do apply, TB testing is required:

- TB skin testing** – Call UND Student Health at 777-2605 to schedule an appointment for testing.
- Or
- Provide documentation of TB testing done** in the US within the past 6 months by a healthcare provider. PPD Mantoux skin test read and documentation in millimeters of induration. A chest x-ray performed in the US will be required for anyone with a positive skin test. A negative chest x-ray is not a substitute for a skin test.
- Or
- Provide documentation of prior treatment of active TB disease.**

- B.  None of the above apply. You do not need TB skin testing.
